17. How are the winning schools from each league determined?

Schools can earn points during the school year for academics, athletics, community service, healthy activities, and sportsmanship. The school with the most points in each division (based on high school enrollment) will receive an award.

a. Academics: 100 points

- Points are earned based on the collective grade point average of all student athletes in league-recognized team sports. The leagues and schools can choose which semester, quarter, or any combination of the two to report to the HHSAA. GPA information representing all student athletes can be submitted in a one-time report to the HHSAA after the third quarter.

- ii. Points are awarded based on the percentage of student athletes who've earned a GPA of 2.75 or higher. For example, if 55% of a school's student athletes earn a 2.75 GPA or higher, the school earns 55 points.

CATEGORY	POINTS AVAILABLE
Academics	100
Athletics	100
Community Service	100
Healthy Activities	100
Sportsmanship	100

b. Athletics: 100 points

- i. Points are earned according to the percentage of the total student body that participates in a team sport recognized by their league. For example, if 100% of the student body participates in a league-recognized team sport, the school will earn 100 points. A 62% participation rate earns 62 points.
- ii. Points are also contingent on the number of league-sanctioned sports that a school offers. Schools offering 15 or more sports are eligible to receive the maximum 100 points. Schools with fewer than 15 will receive a percentage of the maximum depending on the number of sports offered. For example, a school with 100% participation that offers 10 sports is eligible to receive up to 50 points.
- iii. Leagues that follow Title IX reporting standards may have more than 100% participation due to the number of students who participate in more than one league-recognized sport. However, the maximum points awarded in this category is 100.

PARTICIPATION IN LEAGUE-SANCTIONED SPORTS

NUMBER OF SPORTS OFFERED	MAXIMUM POINTS AVAILABLE
15 or more	100
10-14	50
6-9	40
5 or fewer	30

c. Community service: 100 points

- i. Each school receives points for community service that its entire student body performs. The total number of community service hours can be submitted in a single report to the HHSAA.
- ii. Points are awarded based on the number of collective hours that students worked on community service projects. For example, if one student works at a homeless shelter for four hours, that's four hours counted toward a school's total.
